

A Completely Hands-on Activity!

One or two classes at a time can be guided through the Traffic Safety CITY in order to learn correct traffic behaviors for themselves in a realistic, reinforcing, and applicable way!

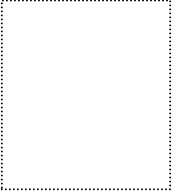

Age-Specific Scenarios!

Students ages 5 to 12 identify traffic hazards, laws, and learn safe behaviors. Parents are also invited to tour.

Students are confronted with certain age-specific traffic safety scenarios, including:

Pedestrian, bicycle, scooter, train, bus, rail, vehicle occupancy, safe walks, safe routes to school, safe zones, and more!

Students learn and have fun too!

Traffic Safety C.I.T.Y.

Creative Interactive Traffic for Youth

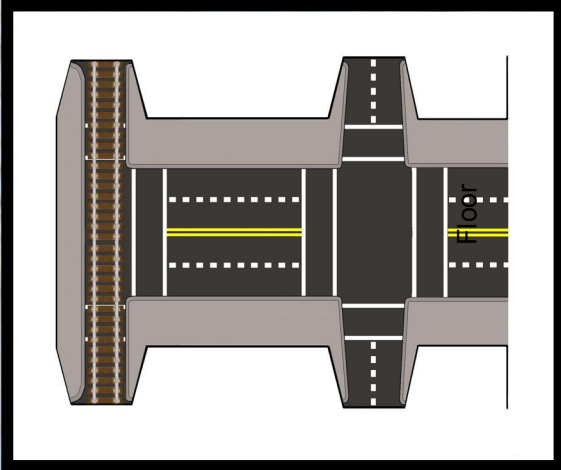

100% Hands-On Program For Elementary Age Children!

The most retainable learning for children, in a realistic setting with repetitive, hands-on experiences which they can be fully comprehended and applied to their own environment.

Flexible, Indoor, and Easy to Set-Up!

Indoor:

The CITY is 30'x30' and fits easily within an auditorium or multipurpose room! The time of year and weather outside doesn't affect the use of the Traffic Safety CITY.

Flexible and easy to Set-up:

Walls depict a school, beach walking path, safe walks, apartments, houses, police and fire stations, bus station, that portrays your community!

Realistic Environment:

Real-life photographs are printed onto 22 colorful vinyl wall panels.

The height of the wall panels (5') encloses students in a **world just their size**, while still allowing most adults easy oversight.

Light, Durable Materials:

PVC Pipes form the skeleton of the CITY. Assembled with easy-to-use Velcro straps.

Thick, roll-out floor mats create miniature streets, sidewalks, crosswalks and even grass safe walks, ready for the eager feet of students and their tour guides.

Fun Accessories Include:

4 Light-up Traffic Signals

4 Stop Signs

4 Sliding Pedestrian Signals

4 Cars
